

Insulated Wire 60°C/75°C 300V**Product Description**

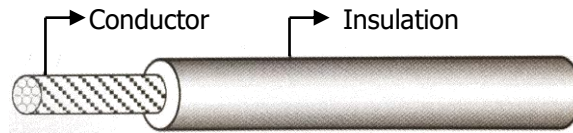

- Bared, Stranded or solid copper conductor.
- Lead Free PVC Insulation.
- Rated temperature: 60°C/75°C; voltage: 300V.
- Reference standard: JIS C 3306

Technical Specification

- Insulation Potential Strength: 300 VAC/min
- UL Rated temperature: 60°C/75°C.
- Rated Voltage: 300Volts

Applications

- For indoor small electrical instruments.
